

For a couple days I had a pain in my stomach and felt nausea that didn't seem to go away. While at Small Group, many of my friends were praying over me for healing. During the prayers, I found myself wishing that someone would lay their hand right on the painful area. Just then, Nadine told me to lay MY hand on the area where the pain was and as she continued to pray, the pain immediately went away! It was such a "God moment" where the mind, body and spirit all connected and I was healed and the symptoms have not returned!
